I submit herewith a D.O. letter from Mr. Cook in reply to my enquiry about the arrangements that have to be made for Science teaching in the Central College during the next session till the new professor joins.

Mr. Cook is at present taking the Senior & Junior B.A. Physical Science classes & the F.A. Zoology classes in Trigonometry.

He proposes that his assistants Messrs Venkataramappa & Venkatachar may undertake B.A. class work, each of them being given an allowance of 100 Rs. ~~each~~ & the F.A. class work he proposes to hand over to Mr. B.K. Srinivasaiengar. He does not recommend any special allce now but some special increment.

Both Messrs Venkataramappa & Venkatachar appear to be teaching Science to the High School classes also & they will not be able to do this next session. Nor will they be able to do this work when the High School is

Note—Cover Sheet

(1 L—10 000—18-1 0

Serial No

removed to the Fort from June 09 Mr Cook therefore thinks that 2 Science assts will be wanted for the High School both next Session & after it is removed to the Fort from June 09. He therefore proposes that 2 graduates on not less than 50 Rs should be entertained to teach Science to the High School classes next Session & also to be after the School is moved to the Fort.

It seems difficult to arrange for all the Science work without additional hands & think Mr Cook's proposal may be tentatively accepted. We have got two young Science graduates Messrs Bhima Row & Srinivasa Row till lately probationers & Scholarship holders in the Agrl Chemists' Dept who have got to be provided for elsewhere. Their practical training in the Agrl Chemists laboratory ought to be extremely helpful

NOTE—Cont'd sheet

Serial No

in teaching Science they may therefore be attached to the Central College temporarily till the end of 1908 for teaching Science to the High School classes

If the services of 2 Science assts as are wanted for the High School when it is shifted to the Fort - these young men may be attached to the School or they may be retained as Demonstrators in the College under the new arrangement recently sanctioned for the colleges -

Pending further orders as to their future disposal they may for the present be attached to the College They may be paid 50 Rs pm ~~they have been paid~~ from the beginning of the next College session. They have been paid 40 Rs pm up to 1st Feb ~~&~~ & the payment at the rate may be continued like they join the ~~the~~ College

The allowance recommended for 100 Rs pm
Messrs Venkat ramappa & Venkatesa char appear to be somewhat high & the qn may be further considered for the present - as cost may be

Formal orders may be issued posting Bhima Row + Srinivasa row to the college temporarily on a pay of 50 Rs in grade C IV with effect from reopening of College on 4th June next

They may also be paid their scholarships as agrl Probrs at 40 Rs pm from 1st Feb 08 to 3rd June 08. If they are found suitable for the Educl dept they may be permanently employed in class C IV ~~Educl~~ + posted to the High School when it is removed to the Fort next June

As regards allowances to Mr ~~Vijaraghava~~ Venkatanarasappa Venkatesachar + Vijaraghava Char who will share in Cook's Science work till the new professor joins, I find from previous references that when Mr Cook went on leave in 1900 + in 1902 the following allowances were given -

Flags V + W

	1900	1902
Mr Vijaraghavachar	75	75
Mr Venkatanarasappa	50	50

Serial No

Mr Venkatesachar - who had no perma-nent appointment at the time - was employed as a temporary lecturer on 150 Rs pm in 1900 & 175 Rs in 1902

On the present occasion Mr Cook recommends an allowance of 100 Rs pm to Mr Venkatanarasappa & Mr Venkatesachar & does not recom-mend any allowance to Mr Vijara-gavachar.

Mr Cooks recommendations may be sanctioned - Perhaps the allce may be fixed at 75 Rs pm. But the reduction is a small matter It is a question whether Mr Vijaraga vachar should be given any allce

Mr Cook recommends that the allce may be given with effect from the date of his retirement & this may be approved -

Mr Cook also recommends a special increment of Rs 5 to Mr BK Srinivasiengar who takes over Mr Cook's work of teaching Trigonometry to the F-A classes

Note—Contn sl cet

T 1 L—50 000—17 3-0

CENTRAL COLLEGE BANGALORE

10 April 1908

Dear Sir,

With reference to your D O dated 26th March 1908 informing me that Mr E P Metcalfe has been appointed Professor of Physical Science for the Central College and that he is expected to join about November next and requesting me to suggest temporary arrangements for the teaching of Physical Science till that date, I beg to make the following suggestions, and if you kindly let me know without delay whether the Government approves of the same I shall then submit a detailed Time-Table showing the distribution of the work My suggestion is that, as the High School classes of the College will be transferred to the City School from the beginning of next year, and as Messrs Venkatanarnappa and Venkatesachar will have to be retained in the College in connection with the extended Laboratory teaching here under the new Professor and the New Regulations, it will be necessary to have 2 Science Graduates in the City School to teach the Physics and Chemistry of the High School classes there and therefore 2 such Graduates should be entertained in the College for the remainder of this year at not less han 50/- rupees each to be instructed in the High School Science teaching by being associated with Messrs Venkatanarnappa and Venkatesachar and to partly relieve them of their teaching in the High School here, while Mr Venkatanarnappa may be entrusted with the Senior B A Physics teaching and Mr Venkatesachar with the Junior B A Physics teaching, each getting a special extra allowance of say Rs 100/-

4

I have hitherto been also teaching the Senior F A Trigonometry and the Junior F A Trigonometry but this was chiefly because it was highly necessary for me as Principal to have personal knowledge of the students in the 2 large F A classes Mr B K Srinivasa Iyengar can hereafter overtake that work so that he will be responsible for the whole of the Mathematics teaching of the 2 large F A classes and I should be glad if in consequence of this heavy work and his excellent character as a Mathematician, Government would kindly give him some special increment

It should be noted that Messrs Venkatanarnappa and Venkatesachar have also got to do the Physiology and Physiograph teaching respectel of the 2 F A classes and they will also have to assist with the Practical work of the Chemical Laboratory as Mr C M Vijayaraghavachar cannot overtake it single handed, the classes being too large

If the 2 young Science Graduates are entertained as I have suggested, Messrs Venkatanarnappa and Venkatesachar will be able to give the necessary assistance required in the Practical Chemistry Laboratory

Kindly let me have a repl as soon as possible in order that I may be able to shape the Time-Table before I leave

Yours sincerely,

Dear Sir,

I am desired to acknowledge the receipt of your D.O letter dated the 10th Instt ~~and~~ regarding arrangements for Science teaching during the next session and to state, in reply, as follows.

Govt approve of your proposal to distribute the B.A physics & Chemistry teaching between Messrs Venkatanarasappa, Venkatesachar & Vyaraghavachar and the proposal to

ver

SUBJECT

assign 4 a Trigonometry
teaching to M B-R-Srinivasengar
You propose an allowance
of 100Rs pm to Messrs
Venkatanarnappa & Venkatachar
This seems somewhat high
but Govt would prefer
passing orders about the
allowances after you finally
distribute the work, and after reference
~~having regard~~ to rules &
precedents in such matters.
As regards additional
assistants for High School
Science teaching Govt
~~propose~~ will attach to
the College during the
next Session two
Science graduates -
Messrs K. Bhima Row
& M.G. Srinivasa Row
who have received practical
laboratory training under
the agricultural Chemist

D 9622

CENTRAL COLLEGE BANGALORE

18th April 1908

Dear Sir,

In reply to your D O dated 15th April intimating that the Government approved of my proposals for the Physical Science teaching etc during the Second Term of this year I have the honor to forward a Time-Table embodying the distribution of work which I have proposed It has been shown to Mr Tait and the three members of the Staff concerned, with the approval of all I have indicated generally to Messrs Venkatanarnappa(v) and Venkatesachar (v) that they will have associated with them in their High School teaching 2 of our Graduates of 1903--4 Viz Messrs K Bhima Rao and M G Srinivasa Rao in order that they may be made familiar with the Practical work Also these 2 Graduates will be able to assist with the superintendence of the Practical Chemistry of the Junior B A , and Senior B A classes when Messrs Venkatesachar and Venkatanarnappa may be engaged with the Fourth and Fifth Forms respectively

I beg to bring to the notice of the Government that, as they will have to examine the Senior B A , & the Junior B A — each three sets of Physics Papers during the coming Holidays, in addition to their own sets of papers, I respectfully suggest that their allowance — which I hope the Government will make as liberal as possible — should commence from the 23rd Instant the date of my retirement and I trust that the Government will be further pleased to grant special increment, in the special circumstances, to the

pay

day of Mr B I Srinivasa Iyengar since the whole responsibility for the Mathematics of the two very large F A Classes will devolve on him

Yours sincerely,

S Balasundara Iyer Esq, B A,
